

VXL GO

Technical Data Sheet

General properties	
Container Dimension	380 x 240 x 210 mm
Tank Volume	10 Liter
Weight	w/o fluid: 2 kg with fluid: approx. 12 kg
Adjustable Temperature Range	25 °C – 60 °C
Temperature Adjustment	Continuous
Heating Time (10L, 20°C – 60 °C)	25 minutes
Recommended Model Materials	No restrictions
Recommended Support Materials	VXL 70, VXL 90
Technical Properties	
Maximum Power Consumption (The peak power consumption of the AirSafe AS1)	850 W
Connection Type	230V/50Hz EU-Plug
Dissolving Technique	Heat, Agitation, Dissolving Agent
Maintenance & Safety	
Maintenance Interval	After draining solution, on demand
CE – Conformity	EU
Service and Support	
Guarantee	6 months
